

Australian Mint

In the darkness of the night
You can always pick a fight
Now we're waiting for the sun
It's the moon we're trying to outrun
We are always left behind
With no answers yet to find
But we got to face the truth
We are always on the move

It's alright...

REFRAIN:

Don't freak out
It's alright
This life is ours
Not going home tonight
Don't freak out
It's alright
This life is ours
And it's a crazy ride

In the brightness of the day
We have nowhere safe to stay
Now we're waiting for the moon
Feeling trapped in big sun-flooded rooms
We want the stars to fill our hearts
To replace the broken parts
But our souls are living proof
We are always on the move

It's alright....
